PROFILE

Detail-oriented Front-End Developer with hands-on experience creating responsive, user-friendly web applications. Proficient in modern JavaScript frameworks with a focus on React.js, along with expertise in HTML5, CSS3, and UI/UX principles. Demonstrated ability to transform design concepts into pixel-perfect interfaces while ensuring cross-browser compatibility and optimization. Committed to writing clean, maintainable code and staying current with emerging front-end technologies.

PROFESSIONAL EXPERIENCE

Xzect Labs 📁	06/2024 – 12/2024
<i>Full Stack Developer (Front-End Focus)</i>	Remote
- Developed intuitive user interfaces for diabetes management platform using Next.js and modern JavaScript - Implemented responsive designs with Tailwind CSS, ensuring seamless experience across devices and screen sizes - Integrated AI-powered conversational flows achieving 80% accuracy in user query responses - Conducted regular code reviews and implemented best practices for front-end architecture	

SKILLS

Programming Languages JavaScript, Java	Front-End Technologies React.js, HTML5, CSS, Responsive Design, Tailwind CSS, Bootstrap	Database MySQL
Development Tools Vite, Webpack, npm, Git, GitHub, VS Code, Terminal, Bash	General Skills Data Structure and Algorithm, Git, Github, Version Control, VS Code, Bash, Terminal, IntelliJ IDEA, API Integration	Operating System Windows, Linux
Soft Skills Critical Thinking, Problem Solving, Continuous Learning, Team Work and Collaboration, Time Management		

PROJECTS

Diabetes Assistant Bot 📁
<i>Interactive Healthcare Web Application</i>
Technologies: HTML5, CSS3, JavaScript, Next.js, Tailwind CSS, Google Gemini API Key Features:

- Designed intuitive interface with responsive components optimized for various devices
- Implemented keyword recognition system for accurate diabetes-related query processing
- Created reusable React components to maintain consistent UI throughout the application
- Integrated Google Gemini API with custom front-end filters to provide personalized responses
- Optimized application loading speed through code splitting and lazy loading techniques
- **Impact:** Empowered users to better manage their diabetes through an accessible, informative interface

Artify

A Dynamic Art Showcase Platform

- **Technologies:** HTML5, CSS3, JavaScript, Vite, Unsplash API, LocalStorage
- **Key Features:**
 - Built responsive grid layouts showcasing artwork with optimized image loading
 - Implemented client-side filtering and sorting of art collections by category
 - Created user favorites system using LocalStorage for persistent data
 - Designed smooth animations and transitions for enhanced user experience
 - Engineered efficient search functionality with real-time results display
- **Impact:** Delivered an engaging visual platform allowing users to discover and save artistic content

Feedback UI

Interactive User Feedback Application

- **Technologies:** HTML5, CSS3, JavaScript, React.js, Vercel
- **Key Features:**
 - Developed custom React components for feedback form with intuitive rating selection
 - Implemented real-time calculation of average ratings and review statistics
 - Created responsive design ensuring accessibility across all device types
 - Built form validation with user-friendly error handling
 - Deployed application with continuous integration using Vercel
- **Impact:** Streamlined feedback collection process with intuitive interface and real-time analytics

EDUCATION		
Jain University	Bangalore, India	
Bachelor of Engineering - Computer Science		

CERTIFICATES		
• Full Stack Development Bootcamp - UpGrad 	• Introduction to programming using HTML and CSS 	• Responsive Web Design
